Claim Rejections - 35 USC § 102

1. Claims 24-27,34-36,42 are rejected under 35 U.S.C. 102(b) as being anticipated by Fischell et al (6016449).

Fischell is considered to encompass all of the structure of the above claims. Col. 19:37 to col. 20:40 teaches steps that are analogous to calculation of seizure prediction. Further, for the device to be in mechanical communication with the calvarium is considered to be intended use only.

Claim Rejections - 35 USC § 103

2. Claims 1,2,4,5,7,8-12,15,16,20-23,28-33,37-41 are rejected under 35 U.S.C. 103(a) as being unpatentable over Fischell et al (6016449) in view of Esteller et al (6594524).

Esteller is considered to describe using a measure of chaos and entropy in the detection and analysis of EEG signals in order to predict the onset of epilepsy. See for example col. 2:10-16, which teach using chaos analysis of a patient's EEG, and the use of the Lyapunov exponent. See also col. 31:5+, which teaches the use of entropy in the analysis of signals. Still further, the use of a control law is discussed at col. 3:62+, demonstrating its commonality in the art. Thus, to measure chaos, and to calculate entropy, as well as use a control law, as taught by Esteller, would have been obvious with the device of Fischell since they are sophisticated techniques that the ordinary artisan would deem useful in a system for treating neurological disorders.

3. Applicant's submission of an information disclosure statement under 37 CFR 1.97(c) with the fee set forth in 37 CFR 1.17(p) on 8/1/06 prompted the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 609.04(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

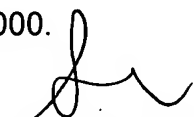

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
